

Andrew McGallian

Chicago, IL | 925-490-6049 | amcgallian@uchicago.edu | andymcgallian@gmail.com

EDUCATION

University of Chicago

Master of Science in Environmental Science, GPA: 3.89

Chicago, IL

Sept 2025 – Jun 2026

University of Chicago

Bachelor of Science in Environmental Science, Minor in GIS, GPA: 3.45

Chicago, IL

Sept 2021 – Jun 2025

RESEARCH EXPERIENCE

Data Visualization Fellow

Center for Digital Scholarship

University of Chicago Library

Sept 2025 – Jun 2026

- Developing and working on an independent project related to digital scholarship and personal graduate studies. Looking at spatio-temporal patterns in Chicago over time by synthesizing historical and contemporary data.
- Working with a cohort of two other fellows to develop and pursue a project.
- Collaborating with librarians on different projects, working with the Center for Digital Scholarship on events.
- Presenting project and performing clinics throughout the year.
- Utilizing GIS, library archives, public data sources, and data science skills

Undergraduate Research Assistant

Environmental Frontiers, Mansueto Institute for Urban Innovation

University of Chicago

Jun 2023 – Jan 2024

- Led a project measuring urban microclimates using innovative mobile street-level sensing technology, including resistance temperature detectors (RTDs).
- Presented preliminary data indicating substantial temperature variations that traditional measurement methods may overlook, showing the complexity of urban heat distribution.
- Collaborated with high school students on research activities, providing mentorship and guidance through various projects, including the CROCUS Urban Canyons field campaign.
- Utilized GIS and coding skills to visualize temperature data, analyze spatial patterns, and created an IOS app for real-time location data collection.
- Presented at the American Geophysical Union annual meeting 2024

Undergraduate Research Assistant

Clara Blättler's Research Lab, Department of Geophysical Sciences

University of Chicago

June 2023 – Sept 2023

- Analyzed and collected data on bulk carbonate samples.
- Prepared samples by powdering, weighing, dissolving, and oxidatively cleaning them.
- Used iCAP RQ (ICP-MS) for sample analysis.
- Presented poster on collected data at Midwest Geobiology Conference.
- Conducted research on relevant topics, bringing notable articles to the lab's attention.

PRESENTATIONS

American Geophysical Union: Extreme Weather and Climate in Urban Areas

Dec 2024

Measurements of Urban Microclimates Using Novel Mobile Street-Level Sensing

Poster

Midwest Geobiology Conference

Sept 2023

Deciphering the Diagenetic History of the Avon Park Formation through a Trace Metal Perspective

Poster

EXTRACURRICULAR ACTIVITIES

University of Chicago Men's Varsity Track Team

Sept 2021 – Jun 2025

Four Year Team Member

- #6 on the university's all-time list for Shot Put.
- Consistent conference scorer in Shot Put, Discus, Hammer, Javelin, Weight Throw.

Sister City Program

Oct 2019 – Present

City of Concord Ambassador to Kitakami, Japan

- Maintaining and enhancing the relationship between the two cities through cultural exchanges in a Sister City Program.
- Visited Kitakami and participated in cultural exchange programs.
- Interacted with foreign dignitaries on a highly formal level.
